

www.DannysHope4Life.com

I am Danny,
32 years old, father of two and married to Charlotte. And there is
no treatment for me in the Netherlands

Only a few months ago I was diagnosed with cancer. A rare type of cancer: bile duct cancer in the liver. Unfortunately there is no treatment for this type of cancer in the Netherlands. One of the best cancer centers in the world, the MSKCC in New York, does offer me a solid chance of better perspectives.

But ... my health insurance does not reimburse the costs of the treatment!

We need 300.000 euros for the operation and monthly treatments in New York.

We need your support to help us continue our battle! Life is too beautiful to give up already!

Scan the code or go to
www.DannysHope4Life.com
and support us in our battle.

Thank you very much for your help,

Danny van Brenk
